Your Partner in South Europe

Every job commissioned is done exclusively by native speakers who have special knowledge of each field, including technical, financial, legal and other difficult text types.

Conditions

Each job will be delivered along with the corresponding invoice, which should be paid in full within 30 days by bank transfer.

Minimum invoice: £ 15

The words translated are counted by computer, so you will only be invoiced for the quantity that has actually been translated.

For computer programs in which words cannot be counted, or for jobs with specially difficult formatting, we will invoice at an hourly rate of £ 24.

We regard all translation orders as urgent. All expenses for transmission by fax, Internet and urgent post are included in the price.

An important feature included in our price is the revision and the quality control of all translations.
